Not illustrated. 1920 Excerpt: .firing ap paratus to replace our hand-fired grates and 1 would appreciate your advice.--V. M. S., Buffalo. A.--Our advice to you is to gather all the data regarding powdered coal that you can. Especially have the powdered coal concerns advise you as to what they will guarantee in your plant. At the same time, get as many automatic stoker bids as you believe suitable for your case. Then make up a tabulated sheet by which you can compare the various firing systems, point by point, and cost item by cost item. When you get through, your decision will be worth while. In answer to the question of how to start an anthracite traveling grate fire without soft coal, we have secured the following specification from an engineer who has successfully handled fires of this sort for many years. In answer to your letter referring to ignition...
